Office Action Summary	Application No. 09/714,781	Applicant(s) FIELD ET AL.	
	Examiner David H. Malzahn	Art Unit 2124	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1-37 are rejected under 35 U.S.C. 102(e) as being anticipated by DeBellis et al (DeBellis) 6,044,388.

DeBellis discloses both an apparatus and a method for generating random bits by collecting and storing entropy data (the time-dependent value T and the secret value S, note column 5, lines 35-40) in a nonvolatile memory (registers 254 and 256 of Fig. 2, also note lines 10-19 of column 9) followed by updating the stored entropy data (T is updated by counter 202 and S is updated by functions F1-F3) followed by using the entropy data to generate the random bits (elements 244, 246 and 248). Relative to hashing the entropy data to generate random seed values note block 506 of Fig. 5.

Relative to applicant's remarks, both the time-dependent value and the secret value are updated, note the above paragraph. Relative to applicant's remarks concerning claim 12 the "hashing" corresponds to the function performed by block 506 of Fig. 5, the "generating" corresponds to the function performed by elements 244, 246 and 248 of Fig. 2 and "communicating" corresponds outputting PRN on line 250 of Fig. 2.

Conclusion

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
